Deloitte

Job summary

Work with a talented and trusted team of experienced Advisors to offer services to small to medium sized enterprises including advising business owners to solve their challenges and help them succeed, technical accounting advice, virtual CFO services, the preparation of financial statements and tax returns, tax consulting, and management accounting.

Responsibilities

- Work directly with clients to solve complex issues and present variable solutions and insights.
- Prepare management reports, financial statements, and tax returns. Give technical advice regarding financial reporting, tax and systems and processes.
- Develop skills in the use and application of cloud-based systems such as Xero and Taxlab, and support clients finance functions.
- Collaborate with internal Deloitte teams such as Tax, Corporate Finance, Audit & Assurance and Consultingto ensure client deliveries are timely and accurate.

Team

Business Advisory are a large team across New Zealand comprising of over 500 finance professionals.

Lead by expert Partners, Business Advisory work with a diverse portfolio of clients to solve finance issues, implement processes, interpret financial information and support privately owned businesses and families achieve their financial objectives.

The Business Advisory team are located in all Deloitte offices across New Zealand and work closely with the Tax team and other Deloitte Business Unites to deliver exceptional client service.

Some of the ways we invest in you

- An initial induction plan learn about the business and clients, along with ongoing support and mentorship
- · Personalised Buddy and Coach to show you the ropes and guide your career
- Access to Deloitte's Tax Skills Diploma course, as well as monthly Corporate Intel meetings to keep our teams up to date with dynamic specialist areas
- Deloitte pay for ongoing education/study days

Day in the Life

I got to help two clients today, wrap up my work for the afternoon, and am looking forward to a client site visit tomorrow to meet their finance staff and teach them how to use Xero more effectively.

Arrive at the office and setup for the day. Login into the finance systems Xero and Taxlab to assist with any

client queries that have come through overnight and

Settle into my workflow for the day, plan out my tasks

and then join the rest of the team on a mid-morning

coffee run - and put my hand up to organise the next

Come back from lunch and catch-up with my Manager to answer some questions. I feel more confident

completing the tax return and financial statement work now – the first consolidation work I have been involved

help solve any issues identified.

quarterly team event!

with.
