

Job canvas –

Forensic

Job summary

We help our clients in identifying, preventing and tackling financial and business fraud-related issues. Forensic is made up of three interlinked sub-clusters which each play an important role in reacting quickly and confidently in a crisis, investigation or dispute; **Discovery, Investigations, and Analytics.**

Responsibilities

- Employ cutting-edge technology and analytical techniques in examining accounting records, financial statements, and source documents to unearth any inconsistencies or irregularities.
- Work on a range of cases across different sectors and industries with clients that require forensic accounting or investigative services.
- Write scripts to clean, aggregate, join, and analyse large amounts of data that can be visualised using interactive dashboards to reveal insights.

Team

We are a diverse team across New Zealand comprising of over 30 professionals working across industries such as Financial Services, Energy & Infrastructure, Telecommunications, Infrastructure and Healthcare.

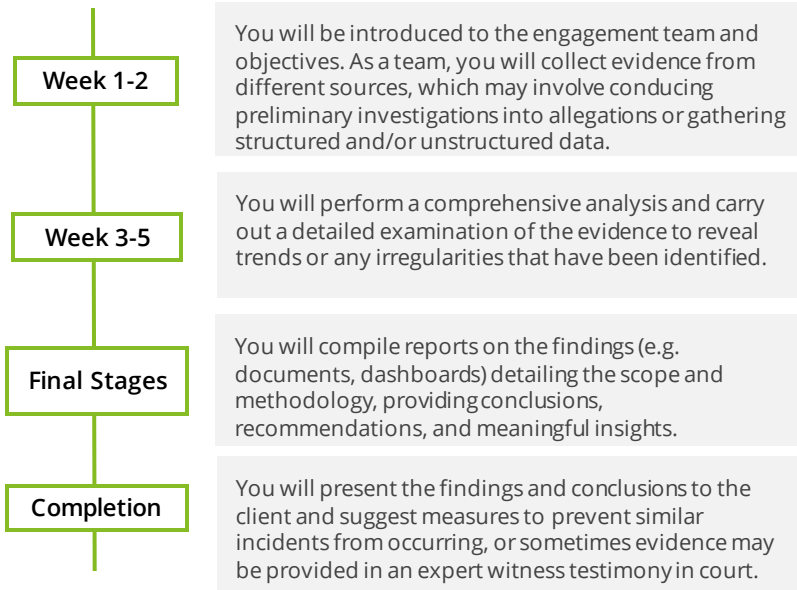

The team is led by four Partners, Lorinda Kelly, Amy Dove, Ian Tuke and Jason Weir.

How we invest in you

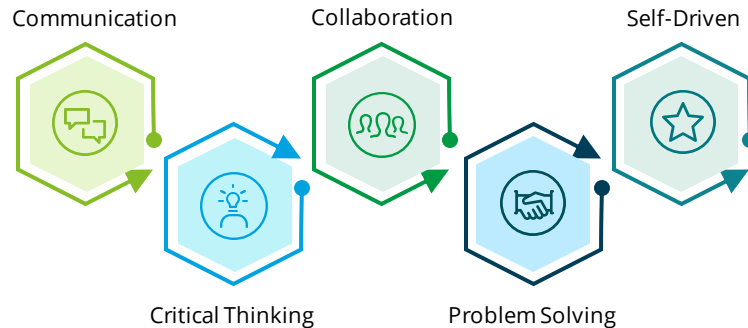

You will be assigned both a buddy and a career coach to support you through your career at Deloitte.

Pay for ongoing professional education/study days, trainings and qualifications.

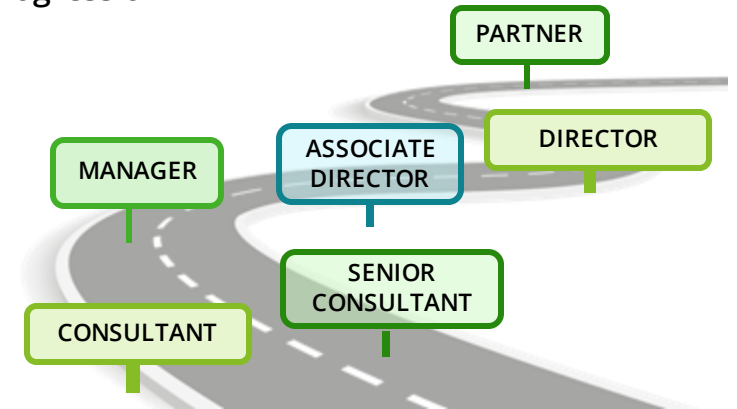

Project overview

Competencies
