

As an Analyst in Technology, Strategy and Transformation (TS&T), you will be part of client facing engagements, helping to create initial drafts of deliverables and working behind the scenes to ensure that the client needs are met.

Responsibilities

- Help clients solve complex problems
- Work with teams to deliver projects that make a real difference to the clients and their people
- Support organisations with the delivery of complex or transformational change programs
- Act in a business analyst role and be a key link between the client and our developers

How Technology Strategy & Transformation (TS&T) Works

We help organisations develop the strategies and implement the systems that build business value and drive performance. From system replacement to IT transformation and implementing more efficient development processes, our people bring deep knowledge and experience to complex challenges.

TS&T works with leading solutions providers to guide organisations along the implementation lifecycle, from setting strategy and design to deployment and optimisation, including solutions for specific functions such as IT, finance and supply chain.

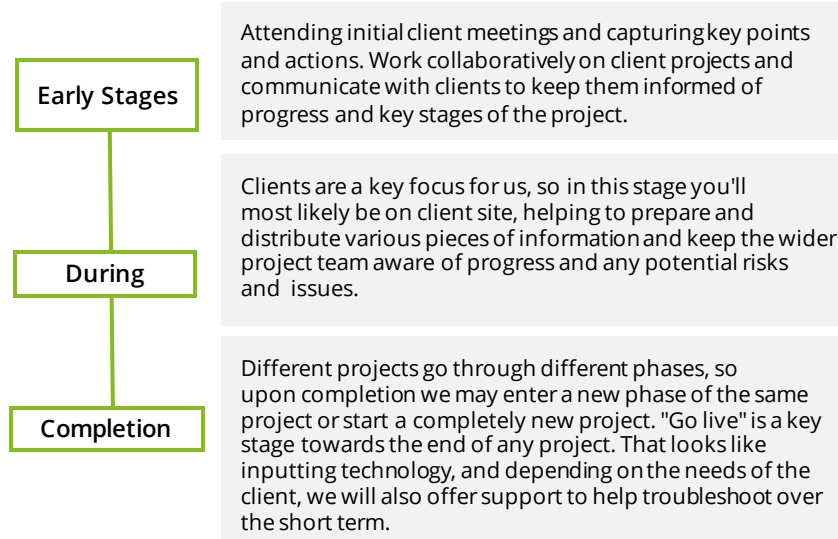

Important relationships in our teams are the ones with your buddy, coach and project leads.

The TS&T Team is led by Kerry Williams (Auckland), and she is supported by the following partners from around the country: Matt Dalton (Auckland), Katie Reid (Auckland), Jeff Brandt (Wellington), Steve Law (Christchurch) and Harald Heimensen (Christchurch).

How we invest in you

- An initial 90-day induction plan to learn about the business and clients, along with ongoing support and mentorship
- Personalised Buddy and Coach to show you the ropes and guide your career
- Deloitte pay for ongoing education/study days

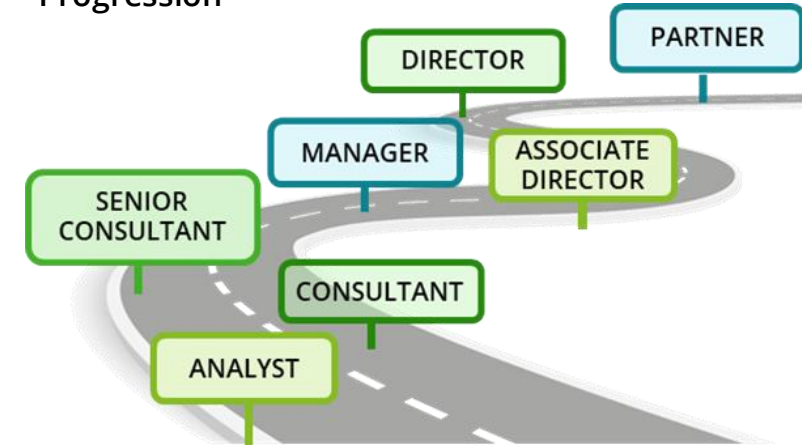

Project overview

Competencies

Progression

Experience

Any part-time experience or volunteer work where you have dealt with people (for example customer service or hospitality) would set you up well for a graduate role with us. Any experience public speaking is also a bonus.

Education and Certifications

Currently studying Bachelor of Commerce at university majoring in Human Resource, business/organisation behaviour with a technology edge.

Technical Capabilities

Able to conduct research and analyse sets of data to draw conclusions. Can identify business problems and think critically to solve them. Capable of multitasking and working with a variety of stakeholders.

Behavioural Anchors

Demonstrates integrity and an awareness of strengths, differences, and personal impact. Able to understand expectations and have a commitment to personal learning and development.
